Slope Stability 2022 Poster Presentation Instructions/Guidelines

Your poster should be put up and be on display in the Arizona Foyer in the Westin La Paloma Resort & Spa by 10:30 a.m. on **Tuesday, October 18** – the display boards will be available by 8:00 a.m. The Poster Session will take place **Wednesday, October 19** from 5:00-6:00 pm, directly following the technical sessions of the day; you should plan to be at your poster during this time to answer questions from other delegates.

All posters will remain on display until the end of the Thursday afternoon refreshment break at 4:00 p.m., at which time they must be removed by the presenters. All posters that have not been removed by 4:00 p.m. will be taken down and held for pick up at the symposium registration desk. Posters not picked up from the registration desk by 5:30 p.m. on **October 20** will be recycled – please avoid laminating posters to ensure they can be recycled.

Posters should be prepared with maximum dimensions of 1.1 m high by 1.1 m wide. This will ensure that the poster fits on the provided display boards. Push pins and/or velcro will be available to mount posters on the display boards provided. Poster titles should appear at the top of the poster in CAPITAL letters with a minimum 84pt font. If possible use a "sans serif" font such as Arial or Helvetica for all text. Author name(s) and affiliation(s) should appear directly below the title. The minimum recommended font size for all text on the poster is 24pt font to ensure that the poster is readable from a distance of 1.5 m away. The flow of the poster should be from top left to bottom right. Colour can be used for highlighting and to make the poster more attractive.

Posters should cover the key points described in the paper or extended abstract. *Remember that posters are visual presentations of the information and as such typically rely on graphs, charts, tables, and pictures to communicate information.* Please use text sparingly, and keep in mind that the ideal poster is designed to attract attention, provide a brief overview of the work and initiate discussion. Try to state the main results in six lines or less. Ensure that your poster is laid out logically and preferably not on a series of 8.5" x 11" sheets. *Posters should not be a copy of a written paper glued to a poster board.*

If you have any questions regarding your poster presentation, these guidelines, or the overall technical program, please contact us at info@slopestability2022.org.
